INTRODUCTION AND GENERAL INDEX

R. L. POLK & CO., publishers of more than 1,400 city, county, state and national Directories, presents to subscribers and the general public, this, the 1967 edition of the Plainfield City Directory, which also includes North Plainfield.

Confidence in the growth of Plainfield's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Plainfield to the world.

The enviable position occupied by R. L. POLK & CO'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Plainfield Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Plainfield the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Plainfield and North Plainfield, and the name, official personnel, nature and address of each firm and corporation.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE on green paper, is the third major department. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner occupied homes, the listing of telephone numbers, and ZIP Code numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Plainfield and vicinity. There are more than 1,000 of these Directory Libraries, installed and maintained in cities and towns throughout the U. S., Canada and Puerto Rico through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which R. L. POLK & CO., is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

Situated in an attractive location, 24 miles southwest of New York City, and immediately south of the Watchung Mountains, Plainfield, a residential suburban city of 45,330 population, is also the center of a retail trade area which extends west 30 miles to Flemington in Hunterdon County, northwest 28 miles to Chester and Morris County, northeast nine miles to Springfield in Union County, southeast seven miles to Metuchen in Middlesex County, and southwest 21 miles to Belle Mead in Somerset County. This area approximates 418 square miles and comprises an estimated population of 290,000, which represents 90 per cent of the population of Union County, 20 per cent of Somerset County, and 15 per cent of Middlesex County, 5 per cent of Morris County and 50 per cent of Hunterdon County.

Because of the rapid development of northern New Jersey, Plainfield is ideally situated by reason of its location, railroads and highways to dominate as a manufacturing, distributing and shopping center of the entire area described above. Newark airport is approximately 18 miles.

New Jersey ranks among the first states of the Union in education, Rutgers University is located only nine miles southwest of Plainfield in New Brunswick, and is one of the oldest institutions of learning in the U. S., having been founded as Queen's College by charter from King George III in 1766. The public school system is adequate to serve the educational needs of all children. To Plainfield is awarded the honor of being the home of the free public school system in the State of New Jersey. The first school came into existence August 16, 1847. Congregations of every creed meet in dignified houses of worship numbering 44 in all, and a fine spirit of friendship exists among the various denominations.

A paid supervisor directs recreational activities throughout the entire year, so that no form of recreation is found lacking. Two moving-picture theatres operate three and four shows daily for twelve months. There are several auditoriums and clubhouses for recreation and exposition purposes.

In the Plainfield area the quantity and quality of skilled workers are excellent for most manufacturing purposes. Skilled machinists of all kinds; building trades, metal, garment and assembly workers, and printers, predominate in the labor market. The principal industrial products are: plastics, electronics, printing presses, newspaper machinery, magazine printing, tools and hardware specialties, hats, women's dresses and sportswear, undergarments, children's clothing, adhesives, wood and concrete preservatives, paints, pigments, steel fabricating, concrete mixing machines and electric motors.

Plainfield is on the main line of the Central Railroad of New Jersey. The Lehigh Valley Railroad main line station is located in South Plainfield, three miles from the center of Plainfield. The Reading Co. line also passes through South Plainfield. Bus services are adequate and cover the entire trade area and the principal outlying towns, including direct service to New York.

The people are industrious, progressive and accustomed to high standards of living. About 60% of the population own their homes.

BOROUGH OF NORTH PLAINFIELD

General Information

North Plainfield is a physically attractive and well-kept one-family residential community of three square miles located twenty-four miles southwest of New York City. It adjoins the City of Plainfield which meets most of the commercial needs of the residents. Within North Plainfield there are a few small light manufacturing plants and a centrally located shopping and service district. The Planning Board is endeavoring to attract desirable commercial ratables while maintaining the present excellent residential characteristics. More than ninety-nine per cent of the homes in the Borough are connected to the municipal sewer system. The Borough has been a member of the Plainfield Joint Sewer Meeting which has recently entered into a long-term contract with the Middlesex Sewer Authority, and permanent disposal lines are in operation to tidewater. North Plainfield has a full-time paid Police Force of twenty-eight men and a full-time paid Fire Department of nineteen men. All of the roads are paved and well maintained by the Street Department.

The adults of this community are civic-minded people. Characteristic of their sense of responsibility is the fact that outstanding citizens willingly serve as members of the municipal governing body and the Board of Education. The income of the residents is derived preponderantly from outside the Borough. Many workers commute to New York, Newark and other commercial and industrial centers, and a large number either own or work in the numerous stores and offices in Plainfield. Hundreds of varied industries, large and small, which are flourishing in the area surrounding North Plainfield employ many North Plainfielders. Large manufacturing plants draw upon North Plainfield for technical and professional skills. The diversity of industries in this group, together with the varied other sources of residents' income, assures a stability of earning power.

An excellent public education system is maintained in six elementary schools strategically located and a six-year high school housed in two adjacent buildings on a beautifully landscaped and centrally located campus. Also there is one parochial elementary school with over 500 pupils enrolled. Because there are very few building lots available in North Plainfield, it is anticipated that the school population will increase relatively slow. The elementary school enrollment seems to be stabilized, and as far as the Board can foresee, we will need four additional classrooms and three all-purpose rooms in the elementary schools.

WHY A *Buyers' Guide?*

★ *It is customary to include a Buyers' Guide in the City Directory because:*

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED

**THE ASSISTANCE
OF PLAINFIELD'S
LARGEST BANK**

The Plainfield area, ideally situate to the New York and Philadelphia markets, welcomes new industrial and other commercial development.

Here you'll find ready access to outstanding transportation facilities (rail, air, sea and highway); a good labor market (skilled and semi-skilled); fine opportunities for plant purchase or construction, a community environment that ranks among the best in the East in its cultural, recreational, and educational appointments.

We cordially invite your inquiries on business development in the Plainfield area. With more than 65 years of experience, assets of \$115,000,000, and capital funds of more than \$9,000,000, we stand ready to render full assistance and service to any enterprise seeking to locate in this area.

OUT OF SIGHT! OUT OF MIND! OUT OF BUSINESS!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

THE CITY DIRECTORY IS THE NATURAL MEDIUM FOR KEEPING A BUSINESS OR PRODUCT NAME IN THE SPOTLIGHT. INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

Do your employers
furnish you with the
latest edition of the
City Directory

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

POLK'S PLAINFIELD STREET and AVENUE GUIDE INCLUDING TELEPHONE NUMBERS, HOME OWNER SYMBOLS and ZIP CODES 1967

Including North Plainfield
Copyright, 1967, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Zip Code numbers are shown immediately following each street description. If a street runs through more than one zone, the new Zip Code Number is shown immediately preceding the lowest street number in the new zone.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.
